Professional Summary

Second-year student at the Academy of Economic Studies Bucharest (ASE), majoring in Economic Cybernetics, Statistics and Computer Science. I combine strong analytical foundations in mathematics and statistics with hands-on skills in visual design and digital marketing. Passionate about building data-driven solutions and translating complex problems into compelling visual narratives — eager to apply these skills in a professional setting.

Experience

Oct 2022 – Nov 2022 **Social Media Marketing Assistant**, *AdSymphony*, Bucharest

- Designed UX/UI prototypes for client websites using Figma, improving layout clarity and user flows.
- Created motion graphics and animated social media content in Adobe After Effects, boosting campaign engagement.
- Managed design file libraries and iterated on deliverables based on real-time client feedback.

Jun 2022 – Aug 2022 **Retail Sales Assistant**, *Emblema*, Bucharest

- Assisted customers with product selection and maintained a well-organised store floor, contributing to a positive shopping experience.

Education

2024 – 2027 (expected) **B.Sc. Economic Cybernetics, Statistics & Computer Science**, *Academy of Economic Studies (ASE)*, Bucharest

Relevant coursework: Statistics, Mathematics, Econometrics, Databases, Programming Fundamentals.

Skills

Design	Adobe After Effects, Premiere Pro, Photoshop, Figma, Illustrator
Programming	C++, HTML, CSS, Python (learning)
Productivity	Microsoft Office (Excel, PowerPoint, Word), Google Analytics
Languages	Romanian (Native), English (Professional B2/C1), French (B1)

Projects & Activities

14–15 Mar 2026 **Hackathon Participant – Vola Travel AI Challenge**, *VibeHack Bucharest*, Bucharest

Competed in a 24-hour AI hackathon sponsored by Vola.ro (Romania's largest online travel agency), challenged to build a WhatsApp-native AI travel assistant from scratch.

- Designed and prototyped a conversational AI agent integrating with WhatsApp (group and direct chats) to handle flight search, trip planning, and booking screenshot analysis.
- Reverse-engineered Vola.ro's live flight search API and built a data integration layer for real-time price retrieval.
- Implemented image processing to identify travel destinations from photos and extract booking details from screenshots using vision-capable LLMs.
- Architected multi-turn conversation context management for group chat scenarios with multiple users and conflicting travel preferences.

Mar – May 2022 **Volunteer Ambassador**, *SCOALA-AMBASADOR – EU Programme*, Bucharest
Organised school activities supporting the EU School Ambassador initiative, promoting European values and civic engagement.

Oct 2022 **Digital Skills Trainer**, *Erasmus+ IDEAS Project*, Bucharest
Welcomed and mentored visiting teachers and students from EU partner countries, delivering hands-on digital skills workshops.

Apr 2023 **Competitor**, *ASUS Learn & Compete 2023*, Bucharest
Competed in a national IT knowledge competition, demonstrating proficiency in computer science topics.

Volunteer Work

Sep 2021 – May 2024 **Volunteer**, *Neghiniță Children's Centre*, Bucharest
Supported activities for underprivileged children over three years, demonstrating sustained commitment, empathy, and social responsibility.
